- Created the GTM strategy for a new initiative that closed a \$300MM+ partnership, driving the build-vs-buy-vs-partner analysis across BD, Engineering, and Operations.

Product Analyst, Finance

June 2020 – Oct 2022

- As the sole finance & GTM partner on 2-person "Build It" incubator teams, co-defined the business and built the demand and business model, rapidly shipping 3 consumer-electronics products from concept to launch (founder/CEO-sponsored).
- Co-authored the PR/FAQ for Amazon's Echo custom silicon (AZ3 / AZ3 Pro) and modeled the product-intercept plan: products, unit volumes, cost impact, and features to design for.
- Dropped into an unfamiliar operations problem and saved \$25MM+ by restructuring sourcing and manufacturing strategy ahead of regulatory change.
