Product manager who gets it right when being wrong is expensive. Twelve years shaping executive decisions, including $1B+ in new-business investments and a $300MM+ partnership, and now building AI systems that clear legal review the first time.

SKILLS LLM orchestration · MCP · AI evaluation · Claude & Claude Code · Python · SQL · Power BI · PRDs, BRDs & PR/FAQs · 0-to-1 product & GTM · pricing & elasticity modeling · client & stakeholder management · change management

EXPERIENCE

Amazon

Sunnyvale, CA · June 2020 – Present

Senior Product Manager, Energy & Sustainability *Jan 2025 – Present*

- **28 of 28 fact sheets cleared legal, PR, and GTM review with zero corrections in 2026.** Built and run the AI pipeline behind them with one engineer. Code computes every number from assured data, and a QA gate blocks anything that fails a check.
- **Cut production time 51% and the budget by over 90%**, removing the need for a $110K-a-year design contract and seasonal temps. Built it for 14 marketplaces and 32 locales, then launched in US English and Spanish first to prove quality.
- Wrote the business case, requirements, and roadmap for the AI platform and its follow-on products, grounded in customer and field input, and won VP and SVP support for the plan.
- Gave Amazon Leo's sales team a sustainability story for enterprise and government buyers who often require one, used in closed-door negotiations and at AWS re:Invent. Built the same for eero's carrier customers.

Product Manager, Finance (New Product Innovation) *Oct 2022 – Jan 2025*

- **Shaped $1B+ in new-business investment decisions** across 5 product lines and 15+ businesses, from indoor farming to EV charging to home energy hardware. Made go/no-go calls with no playbook, and two reached CEO-level review.
- **My revenue-share structure was adopted in a $300MM+ co-development deal.** Owned the business model and cost structure, and re-ran the numbers through several rounds of redlines.

Senior Product Analyst, Finance *June 2020 – Oct 2022*

- Finance and GTM partner to Build It, a ~20-person, CEO-sponsored team testing how lean a hardware team can be and still ship. Built the business and demand models, and the team shipped 3 consumer-electronics products.
- **Saved $25MM+ in import duties** by moving final assembly from China to Vietnam ahead of regulatory change, a first for a new-device program at Amazon. Came in with no operations background.
- Raised Halo Rise's launch price 15% by leading the pricing analysis and getting SVP sign-off.
- Co-wrote the PR/FAQ for Echo's custom silicon (AZ3 and AZ3 Pro) and modeled which devices would use it, at what volumes and cost.

Heineken USA

White Plains, NY · Sept 2018 – June 2020

Senior Strategy Manager, Revenue Management *Sept 2018 – June 2020*

Advanced from Strategy Manager

- **Grew organic sales ~$30MM** reporting to the CFO, by reworking pricing and promotions for Heineken, Dos Equis, and Tecate with distributors nationwide.

- Built Heineken USA's Revenue Management team from scratch, setting its KPIs and operating rhythm with global leadership.
- Replaced manual reporting with Python and Power BI automation that built sales decks for the commercial teams.

Henkel Stamford, CT · May 2015 – June 2018

Associate Manager, Revenue Management *May 2015 – June 2018*

Advanced through three roles: Sales/Category Development Analyst → FP&A Analyst → Associate Manager

- **Built the store-level model behind 300%+ Walmart revenue growth** on Dial's $0.93 everyday low price. Defended it when Walmart's buyer pushed back on shipment volumes, won agreement, and the launch earned 7 endcaps for the year.
- Drove $55MM in profit across key retail accounts with assortment, pricing, and promotion plans built on price-elasticity models.
- Built Henkel Canada's Revenue Management function from scratch with the Canadian GM and Marketing VP.

Advantage Sales & Marketing Bentonville, AR · Feb 2014 – May 2015

Category Manager *Feb 2014 – May 2015*

Advanced from Category Analyst

- Ran weekly reporting and Walmart and Sam's Club pitch decks for about 15 CPG clients at once, aimed at growing their distribution.
- Promoted to embedded analytics partner for Sargento and Church & Dwight, turning store-level data into the recommendations they took to Walmart and Sam's Club buyers.

EDUCATION

American University, Kogod School of Business, MBA, Concentration: Data Analytics

Arkansas Tech University, BSBA, Concentration: Management & Marketing
